Lahore, Punjab, Pakistan

Professional Summary:

Frontend Web Engineer specializing in interactive UI development with modern JavaScript frameworks and animation libraries. Proficient in React.js, JavaScript (ES6+), HTML, and CSS, with experience in developing component-based SPAs and integrating APIs. Focused on clean code, performance optimization, and user-centric design. Passionate about creating accessible, performant web interfaces that balance visual appeal with usability and maintainability.

Technical Skills:

Programming Languages: JavaScript (ES6+), HTML5, CSS3

Backend / BaaS: Firebase Authentication, Cloud Firestore, Node.js (basic)

Frameworks & Libraries: React.js, React Router

Styling & UI: CSS Flexbox, CSS Grid, Responsive Web Design

Web Development Concepts: Single Page Applications (SPA), Component-Based Architecture, REST APIs (learning), JSON, DOM Manipulation

Development Tools: Git (basic), GitHub, npm, VS Code, Chrome DevTools

Deployment: Vercel / Netlify (GitHub-based auto deployment, HTTPS, Build configuration)

Technical Projects:

Real-Time Chat Application | React, Firebase, Netlify

- Developed a real-time chat app using React.js with reusable components and client-side routing
- Implemented Firebase Firestore for real-time message storage and retrieval, including CRUD operations
- Added Firebase Authentication for user sign-up, login, and secure access
- Deployed the application on Netlify
- Designed a responsive interface ensuring mobile-first design and smooth user experience

Education:

University of Lahore   Punjab, Pakistan

Bachelor of Computer Science (7th semester)

- Relevant Coursework: Data Structures & Algorithms, Web Development, Software Engineering, Database Management Systems
